

HP PageWide Web Press T400 HD Color series

Your high-volume, high-quality, versatile,
digital inkjet printing press

Opportunities abound with the HP PageWide Web Press T400 HD series—a digital production printing press designed for a broad range of applications.

Produce outstanding quality—with fine grain, smooth skin tones, and incredible shadow detail. Do more, and still meet tight turnaround times with the most productive press on the market¹—produce over 8700 full color pages per minute.² Unleash the power of digital and make every page unique. This press is designed for upgradability, so your investment is protected against future technology advances.

Outstanding image quality—print a broad range of applications

HP High Definition Nozzle Architecture (HDNA) completely raises the bar in digital color quality, using 2400 nozzles per inch native resolution and dual drop weight to deliver image detail like never before. The result: image quality ideal for demanding applications in publishing, direct mail, and commercial print.

- See outstanding image quality with smooth skin tones and incredible shadow detail with HP HDNA's 2400 nozzles per inch native resolution and dual drop weight
- Produce top notch results with continuous alignment — the press continuously monitors and actively adjusts color to color registration to provide consistent quality throughout a run
- Deliver uncompromising color consistently with HP's set of on-press and pre-press color management tools, including the HP SmartStream Color Studio
- Maximize your press's production availability with easy, automated quality control features. The HP PageWide Web Press T400 HD family provides multiple ways to check quality during a print run, including the optional HP Quality Image Check Vision System, which monitors nozzle health by selectively comparing the RIP output to the printed image.

¹ Productivity based on internal HP testing and methodology compared to color inkjet presses currently installed for publishing, direct mail, and commercial printing as of March, 2016.

² In Performance mode

“With the HP PageWide Web Press T490 HD, we’ve got the print quality and production speed to expand into high-end color trade books and photo books, brochures, magazines, and retail catalogs. Our customers tell us they can’t believe that it’s digital printing. This is a real breakthrough into the offset world”.

– Giovanni Antonuzzo, CEO, Rotomail Italia S.p.a

World-class digital productivity¹ with HP HDNA technology

Take on more jobs and print them faster with unprecedented color digital performance—enabling profitable short and mid-run jobs. Revolutionary HP HDNA delivers reliable printing at amazing speeds, producing over 500,000 pages per hour in full color in Performance mode.³

- Accelerate your performance and meet demanding turnaround times with incredibly fast productivity in Performance³ and Quality⁴ modes
- Make easy work of high production volume with up to 210 million images per month duty cycle⁵
- HP HDNA thermal inkjet technology with 8X nozzle redundancy delivers reliable production quality
- Multi-roll printing with optional zero speed splicer enables profitable high copy count production runs
- Provide mass customization — make every page unique and print at full press speeds with HP SmartSteam Elite Production Print Server

Grow your application and business reach

Watch opportunities increase with this press. Its amazing versatility enables more profitable printing on a wide range of applications and media types. Add more value to your clients with 100% variable data digital inkjet printing. Expanded dryer configurations, with user-selectable Performance³ and Quality⁴ modes, allow flexibility to produce jobs that drive business growth.

- With a 42-inch web width, your application options are virtually unlimited—take on posters, banners up to 108 inches, journals, books, catalogs, magazines, direct mail, commercial print, newspapers, and more
- Produce high-quality prints on every category of media, including matte and gloss offset coated media with HP Priming Agent and offset uncoated media with HP Bonding Agent
- Greater choice—work with a broad range of HP ColorPRO Technology enabled and compatible inkjet papers
- Scalable drying capacity—print at fast speeds and high coverages on an expansive selection of paper types, including offset coated media

Smart investment can enable profitable growth now and in the future

With HP HDNA, HP proves again that it is the smart investment for web press solutions. HP has a proven track record of upgrading existing customer presses, allowing them to benefit from technological advancements and profit from new functionality. Existing HP customers are invited to upgrade their current web presses to HDNA.

- Reliably deliver quality suitable for a broad range of applications at attractive economics
- No click charges—optimize output while controlling costs with HP; pay only for the consumables you use
- Upgrade ramp-up support to boost productivity; business development support to fuel business growth
- Upgradable solution grows with your business — Upgrade to faster speeds, more drying capacity, more DFE processing power— get what you need today and scale capacity with your business

¹ Productivity based on internal HP testing and methodology compared to color inkjet presses currently installed for publishing, direct mail, and commercial printing as of March, 2016.

³ Performance mode delivers high quality using single (or high) drop weights.

⁴ Quality mode delivers the highest quality using dual drop weight nozzles.

Introducing a new era of quality and productivity—and more—with HP HDNA technology

Significantly boost productivity, extend your application reach, deliver outstanding quality, and ultimately transform your business with revolutionary HP High Definition Nozzle Architecture (HDNA) on HP PageWide Web Presses.

Advancements enabled by HP HDNA deliver visibly superior image quality compared to existing HP Inkjet Web Presses. Enhancements, including 2400 nozzles per inch native resolution, built-in nozzle redundancy, and continuous alignment deliver the outstanding quality required of demanding applications, such as color trade publications, medical texts and journals, and high-end retail brochures and catalogs.

Choose the HP PageWide Web Press that best meets your needs today—in terms of format size, speed, duty cycle—and scale capabilities as your business grows. All HP HDNA enabled presses improve economics through greater print efficiencies—reduced chip out, minimal gap, and the ability to print on-ramp. This technology also offers investment protection. Upgrade your existing press to HP HDNA today and rest easy knowing this HP PageWide Web Press T400 HD series will continue to benefit from future innovation.

Eco highlights

- Reduce waste with digital on-demand printing
- Water-based HP inks—no hazard warning labels
- No HAPs intentionally added*; non-flammable and non-combustible**
- Very low VOC emissions***
- Free and convenient printhead recycling****
- Ink drums are material recyclable

High-touch, high-tech solutions customized for your printing success

HP solutions expertise can help shorten your path to success and sharpen your competitive edge. HP's solutions architects will work with you to determine your end-to-end requirements, and to discuss a solution customized to meet the specific demands of your business.

Enhance your productivity with HP Service Edge

Running a successful print business means always staying ahead of the competition with game-changing innovation. We're on your team from day one to better equip your people with expertise and independent issue resolution, drive greater efficiency with smart data systems, and help grow and transform your business. With the HP Service Edge, you can move ahead with peace of mind and confidence that your HP PageWide Web Press investment is working hard to return the highest levels of productivity day after day. With professional business solutions, we're working together with you to fuel your business success.

HP's digital leadership—taking your business into the future

Transform your business today. HP's latest series of PageWide Web Presses include game-changing HP HDNA technology that not only enhances your product offering, but also changes the way you serve your customers. When you partner with HP—a leader in digital printing technology—you gain the support and backing of an industry powerhouse. Plus you create a distinct advantage for your business as you leverage HP's decades-long technology development, 4500 patents in the last 10 years alone, and significant R&D investment to drive continued innovation.

Reinvent your operations and business

PrintOS is an operating system for your business—an open, secure cloud-based platform that helps you get more out of your HP PageWide Web Presses and your print production operations. Leverage PrintOS applications to increase efficiency, make better-informed decisions, innovate, collaborate, drive growth—and increase profitability

Technical Specifications

	HP PageWide Web Press T490 HD	HP PageWide Web Press T480 HD	HP PageWide Web Press T470 HD
